

**REVIVAL**  
LEAK | FLOOD | FIRE

### Shaikh Ayub Solicitors

On 27<sup>th</sup> May 2016, Revival Halifax was called out to law firm Shaikh Ayub Solicitors in Bradford who had suffered a flood due to an Escape of Water (EOW) from one of the rooms in their landlord's flat above the office.

When our technicians arrived at the office, they noticed that furniture, carpets, and important documents along with other contents had been affected.

We were asked to assist Shaikh Ayub Solicitors with the removal and disposal of BER (Beyond Economic Repair) contents and save anything that could be restored, such as important legal documents.

In order to effectively carry out this job, our technicians began by carefully assessing the affected contents. Then, we listed and disposed of BER items including large heavy items such as filing cabinets into on-site skips. We were also able to save a significant amount of confidential paperwork.

Due to the sensitive nature of the documents, Revival installed an on-site drying chamber in an attempt to save this important documentation. The drying chamber worked extremely well and we were able to successfully preserve the majority of the sensitive case documentation to a usable state. The delicate files were re-boxed and moved to a safe, dry area.

The restoration work was completed in 4 days on site.

Shaikh Ayub Solicitors were extremely happy with the service that they received; particularly the efficiency and integrity shown by the Revival Halifax team for saving the important files and documentation.

PEACE OF MIND | RESTORED
